

Andy Renner, LAT, ATC

November of 2023 will mark 20 years as a Certified Athletic Trainer for Andy. He has primarily worked in the secondary school setting but has experience in collegiate, clinical, professional sports, and physicians practice settings. In 2011 he began working with the other athletic trainers in his high school's conference to meet quarterly. This turned into the development of the Southwestern Conference Athletic Trainers as a CEU provider. In 2017 he took the next step in his volunteer leadership journey and joined the IATA board of directors as Region 4 representative. Then in 2021, he completed the NATA Leadership Academy giving him the confidence to take on a larger role as IATA VP. Andy is the head athletic trainer at Alton High School where he has continually advocated for improvement of his position and the healthcare it provides. He resides in Alton with his wife of over 12 years, Marlana, and their 2nd-grade son Joshua. He enjoys waterfowl hunting and spending time with family and friends in his spare time. The family trips often involve an adventure for Josh, a book store for Mom, a foodie lunch for all, and a craft beer pickup for Dad.
